1. Overview

Project name GDG ER Platform

Project Description

A centralized platform for the External Relations (ER) team to manage all contacts, sponsors, partners, companies, venues, and other external stakeholders. The platform replaces fragmented spreadsheets and allows structured workflows for sponsor tracking, event management, and contact history.

Objectives

- Provide a single source of truth for all ER contacts and external partners.
- Enable the ER team to track outreach, sponsorships, and partnerships.
- Streamline workflows by integrating companies, contacts, events, and resources.
- Provide role-based access.

Targeted users

- ER Team Members (Editors) → for adding/updating data.
- ER Co-Managers (Admins) → for full control.
- Leads (Admins) → for full control.

Tech stack (specified by the team later with a justification)

2.Feature Backlog (Core Section):

Feature 1: Companies Management

Priority High

Description Manage companies with extended details and history.

User Story

As an ER member, I want to record company information with contact persons and updates, so I can evaluate and revisit potential sponsors.

Acceptance Criteria

- List of companies with filters (field, type, updated date).
- Detailed local company profile including:
 - **Fields:** Company name, Website, Field, Type, Company , **isLocal**, email, Phone number, Physical address, Notes, Updated date, Updated by, **Personal Contacts**
- Add/edit/delete company.
- History of updates must be logged.
- Link companies with events.

Feature 2: Personal Contacts Management

Priority High

Description Manage individual external contacts.

User Story

As an ER team member, I want to store personal contacts with details and providers, so I know who to reach out to and who in the team provided the contact.

Acceptance Criteria

- List of contacts with filtering (role, company, provider).
- Contact profile with fields:

- **Fields:** Full name, Role, Phone number, Email, LinkedIn, organization, Provided by (team member).
- Add/edit/delete contact.
- Associate contact with companies and events.

Feature 3: Venues Management

Priority Medium

Description Manage venues for events with all related contacts.

User Story

As an ER team member, I want to maintain venue records with contacts and media, so I can quickly find suitable event locations.

Acceptance Criteria

- List of venues with filters (location, contact role).
- Venue profile with fields:
 - **Fields:** Venue name, Website, Pictures link, Phone number, Email, Address, Notes, **Personal Contacts**
- Add/edit/delete venue.
- Associate venue with events.

Feature 4: Clubs Management

Priority Medium

Description Manage other university clubs and organizations.

User Story

As an ER member, I want to store details of clubs (universities, socials, followers) so I can collaborate or cross-promote with them.

Acceptance Criteria

- List of clubs with filters (field of study, university).
- Club profile with fields:
 - **Fields:** Club name, University, Field of study, Platforms (where club has a page), Email, Links to socials, Phone numbers.

- Add/edit/delete club.
- Link clubs with events.

Feature 5: Media Partners Management

Priority Medium

Description Manage partnerships with media organizations.

User Story

As an ER co-manager, I want to organize media partners by type and platforms, so I can keep track of publicity support.

Acceptance Criteria

- Media partner list with filters (type, field, platform).
- Partner profile with fields:
 - **Fields:** Type (social media, radio, **club**), Field, Platforms, Email, Links to platforms, Phone numbers.
- Add/edit/delete media partner.
- Link partners to events.

Feature 6: Journalists Management

Priority Medium

Description Manage individual journalists who may cover events.

User Story

As an ER team member, I want to record journalists' contacts, so I can invite them to cover our events.

Acceptance Criteria

- Journalists list.
- Profile with fields:
 - **Fields:** Name, Organization, Phone number, Email.
- Add/edit/delete journalist.
- Link journalist with events.

Feature 7: Speakers Management

Priority High

Description Manage speaker profiles for events.

User Story

As an ER manager, I want to maintain speaker details including expertise and potential topics, so I can plan events and outreach.

Acceptance Criteria:

- Speakers list with filters (category, organization).
- Profile with fields:
 - **Fields:** Name, LinkedIn link, Email, Organization, Profile (bio), Category, Phone number, Potential topics, Notes.
- Add/edit/delete speaker.
- Link speakers with events.

Feature 8: Service Providers (Traiteur, Restaurants, Printers, Stores)

Priority Medium

Description Manage service providers related to events (food, printing, stores).

User Story

As an ER team member, I want to keep service provider contacts in one place, so I can reach them easily for logistics.

Acceptance Criteria

- Lists for each provider type: Traiteur/restaurants, Printers (Imprimeurs), Stores.
- Profiles with fields:
 - **Traiteur/Restaurants:** Name, Location, Email, Phone, Website, Social media links.
 - **Printers (Imprimeur):** Name, Location, Email, Phone, Website, Social media links.

- **Stores:** Name, Location, Email, Phone, Website, Social media links.
- Add/edit/delete providers.
- Link providers with events.

Feature 9: Event Management & Sponsor Tracking

Priority High

Description Manage events and track sponsor outreach and responses.

User Story

As an ER co-manager, I want to track sponsor outreach per event, so I can measure the success of sponsorship efforts.

Acceptance Criteria:

- Create/edit/delete/archive events.
- Event profile includes: associated companies, contacts, venues, media partners, speakers, etc.
- Track sponsorship workflow:
 - Contacted (Yes/No)
 - Response (Yes/No)
 - Status (Pending, Confirmed, Declined)
 - Responsible team member
 - Date of contact
- Export sponsor lists for each event.

Feature 10: Bulk Data Import/Export

Priority High

Description Upload spreadsheets (CSV/Excel) and map to database fields.

User Story

As an ER team member, I want to bulk upload contact and company lists from Excel, so I don't waste time entering them manually.

Acceptance Criteria

- Upload CSV/Excel.
- Map file columns → entity fields.

- Import data (new or update existing).
- Export lists with filters to CSV/Excel (optional but can be important).

Feature 11: User Roles & Permissions

Priority High

Description Restrict platform functionalities by roles.

User Story

As an ER lead, I want to define different access levels, so sensitive data cannot be changed by unauthorized users.

Acceptance Criteria

- **ER team:** Add/edit entities.
- **ER co-managers:** Full control + manage fields/pages/users.
- **Leads:** Full control + manage fields/pages/users.

Feature 12: Activity log of who performed each action.

Feature 13: Entity Activity Tracking

Priority High

Description Track the presence and interactions of each entity (companies, contacts, speakers, journalists, etc.) across events.

User Story

As an ER lead, I want to see how many times an entity (company, speaker, journalist, etc.) has participated in or been linked to events, so I can evaluate their reliability and engagement.

Acceptance Criteria

- For each entity profile, show an **“Activity History” section**:
 - Events they were linked to.
 - Type of involvement (sponsor, speaker, venue, journalist, partner, provider).
 - Date of event.
 - Notes/interaction log for that event.

- Ability to filter by entity type (e.g., show all events where “Company X” was a sponsor).
- In Event profile: show linked entities with their status and role.

Feature 14: Sponsor Outreach & Contact Log

Priority High

Description Track sponsor outreach per event, including status, who contacted them, and when.

User Story

As an ER team member, I want to record when I contacted a sponsor, their response, and the outcome, so the whole team stays updated on sponsorship progress without duplicate efforts.

Acceptance Criteria:

- In each **Event profile**, sponsors/companies... have a **status field**:
 - Not Contacted
 - Contacted
 - Responded (Positive/Negative)
 - Confirmed
 - Declined
 - No Response
- Each contact action logs:
 - **Who** contacted (auto from logged-in user).
 - **When** (timestamp).
 - **Notes/summary** (optional text field).
- Status and logs are **visible to all ER members** for coordination.
- Can **filter sponsors by outreach status** inside an event.
- History must persist (e.g., if a sponsor was contacted multiple times for different events).

3. Notes or Comments:

- Import/export from CSV/Excel is critical since the ER team currently works with Google Sheets.
- **Activity history is essential**: show per-entity participation across events.

- **Future Feature** (not in current scope)
 - Contact sponsors directly from the platform (send emails).
